Amy member used **capacitors instead of using a Lead/Acid battery in kick-start, magneto bikes?**

It appears that it can even be used to start bikes, even a few days later, with modern capacitors holding their charge for a few days! Using capacitors would certainly help, since I wouldn't ever need to worry about time-between-starts, and trickle charging, to keep a Lead-Acid battery "healthy". ## **Bikes Blues & Booze 31/3/19 Balhannah, or more commonly 'The Coffee Run'.**

Left Barrel Brewing

**Didn't look too good at the start** -10am Coles Car Park Newton . Travelling to the Start was a little hairy , a little drizzle had produced potential slippery roads which we experienced in the city. Once at the car park waiting for the hoards of riders to appear, at 10.00 4 of us had assembled eager for the reputed interesting hilly windy ride.

It was just that, up through the hills on roads I had thought of using but dismissed and across other familiar ones that I had previously enjoyed. An hour of sheer joy back and forth, up and down, across this one over that cruising along having a great time. But all things must end and we arrived at the brewery.

Not quite ready for us, we soon got organised. Some bikes in and others outside making a great display. By **this time,' it' had got away from us and a coffee was in order. As the Brewery hadn't a coffee machine, as yet, we had to walk the '100' yards to the coffee shop some 600 yards away. Well worth it and as 'it 'had got away from us, an early lunch was in order, not wanting to travel the '100' yards for a return journey.**

Upon return we discovered there were indeed people who were interested in the display or was it just the array of brews available. Sit down or stand up and talk to the patrons about everything and nothing and enjoy our stay. Time soon got away again but returned for our trip back.

Having enjoyed our ride out we decided to return a similar way and having spent time conversing which of course creates a thirst decided to return via Cuddly Creek for a coffee. Many more now more familiar roads later we arrived at Babets establishment. Sit down have a coffee and converse with more visitors, fellow riders. This was to be a short visit as we had more windy roads to traverse. Off home via the corkscrew always a pleasing ride then back though the suburbs home.

A very enjoyable day thanks to the Brewery and our ever expanding experience on never-ending roads in our marvellous Adelaide Hills. Ian Rounsevell (aka Jimmy Olsen—Junior reporter in training).

### MANNUM Day 28th April

We were lucky with the weather this year, no rain, perfect riding temperature and a pleasant location for the display and to socialise on the river front reserve. →

The main ride followed the Northern river bank to the Purnong ferry and returning to Mannum on the southern bank turning off to Younghusband. We regrouped at the lookout on top of the cliffs where we met up with the short run group who had crossed the river on the Mannum ferry.

This would have to be the most scenic and longest stretch of road in South Australia that follows the Murray bank, past back waters, shacks and homesteads. The road condition with very little other traffic made this a very enjoyable relaxing ride. Unfortunately the last few kilometres of this road is closed due to bank collapse caused by the low river levels a few years ago, which meant a steep hill climb back to the main road, a couple of the belt driven and single speed veterans needed to assist the engine on the climb, I have found out since that it is possible to have the road closed gates unlocked to gain access through the damaged road, **which we will look into if we have this run again, sorry I didn't find this out before.** ↘

As some background: The Mid Murray council were approached, inquiring about a suitable location to hold this event, with the biggest problem to me being parking of cars with trailers.

The council members I dealt with could not have been more helpful, Ian and I spent some time with them checking out the options. The Arnold Park Reserve adjacent to the ferry we thought was the best option last year due to works on Mary Anne Reserve. Council response "We can close off the reserve and carpark for your exclusive use and put in speed restrictions, and supply tables and chairs".

This year I thought the Mary Anne reserve would be better. Of course I thought trailer parking would again be the biggest problem.'

"No problem we will close off the carpark for your use".

Many thanks go to the Mid-Murray Council. Regards—Hunter S.

*Mannum Meander* was an eye opener for me. I was reliably informed that there are no crocodiles, snakes or bunyips in the mighty River Murray so I agreed to attend only to be met by raging Panthers, Thunderbirds little Duggies, Scouts and Chiefs, Beeza's Imps and Red Hunters. So much for misleading me about wild animals frequenting the lawn area. I was reliably informed that they are OK as long as the rider is present? But I did keep an eye out for that Bunyip. I checked out the usual tree and post when I found a cool Dryrider jacket on the lawn when I was about to 'check' it out I was warned 'do not do it' so I wandered off *Maximus*

Ian Hese and Colin Behn participated in the Gawler Veteran Vehicles Club run finishing at Greenock. An interesting run thru the Barossa Valley with the pre 1930s cars and 3 other motor-bikes, including a nice 1903 FN.

**PILLION RIDING**

**Deputation to be Arranged**

Further protests have been made by motor cyclists against the law in this State which prohibits pillion riding.

At a general meeting of the Motor Cycle Club last night in the clubroom, Flinders street, the matter was introduced by Mr S. J. Lower (secretary).

He stated that the request to the Government was that pillion riding be allowed, but that only suitable saddles and foot rests be permitted, thereby ensuring safety to both riders.

The meeting decided unanimously to support the Motor Cycle Importers' Association in its efforts to have the Act amended.

The matter was referred to the executive committee, which was empowered to appoint two delegates to join a deputation to wait on the Hon. R. L. Bayler (Premier) at an early date.

The Automobile Association has also decided to support the movement.

I asked a retired member why VVMCCSA members wore white overalls when out riding, the answer is - *Before the days of high visibility jackets (ugh!) Wally Woollatt was keen to make sure riders were conspicuous, and also to indicate we were part of an event. Almost a uniform. A number of entrants were from speedway (again the W. S. Woollatt connection) and had white overalls anyway. The MCC of SA was driven by Wal J Murphy (also instrumental in starting the first Veteran Car Club, which met in the MCCSA rooms, later to become the sporting car club) so a search on Murphy might turn up something of the Constitution. Do the early MCC minutes not mention it? Regards TG.*

**S.A. AFFILIATED MOTOR CYCLE CLUBS**

(Continued)

**A.J.S.**—The A.J.S. Club was formed in 1929 and since that time has made rapid headway. The club has interested itself in all types of motor cycle fixtures, and conducts a popular open event in the nature of a T.T. scramble at Beaumont. The trophies for this fixture are well worth competing for, and a good entry list is received each year. The A.J.S. Club also sponsors the well-known Kadina rally. Meetings are held fortnightly, on Monday nights, in the M.C.C. of S.A. clubrooms, Flinders Street, with an average

attendance of 30 members. Many foundation members attend the meetings regularly. Mr. Jim Taylor is the club president and Mr. Ray Templer, of 32 Leslie Street, Woodville Estate, is the secretary.

\* \* \*

**GLEN OSMOND**—The Glen Osmond Club was formed in 1930 and its members have actively interested themselves in all forms of motor cycle fixtures in South Australia. Many pioneer members still hold office in the club. Mr. Bert Hill has been the only president since the club's inception, as has also Mr. Glen Langley, the captain. Members conduct their meetings in the M.C.C. of S.A. clubrooms on alternate Tuesday nights, and an average of 20 members attend. Mr. F. Paynter, of 1 Nana Terrace, Albert Park, is the club secretary.

**SOUTHERN CROSS**—The Southern Cross Club was formed in 1932, and its members have always taken a very active part in all motor cycle fixtures in South Australia. The club's annual speed meeting at Sellick's Beach, on Anzac Day, is the outstanding fixture of the year, and entries have exceeded the one hundred mark for years. Meetings are held once a month in the Southern Cross Hotel, with an average attendance of 32 members. A number of members have held office in the club since its inception, and the membership is in the vicinity of one hundred. Mr. M. J. Noonan is the president of the club, and Mr. W. G. McCord, 44 Unley Road, Unley, the secretary.

Barossa Valley Machinery winners where VVMCCSA members Philip Holmes and Trevor Diener are a major part of the society.

Grease stained hands with a hint of diesel is just the way members of the Barossa Valley Machinery Preservation Society prefer them and they now have on their hands a national award. In late March the passionate group secured the highly coveted Geoff Wishart perpetual trophy during the National Historical Machinery Rally's biennial event hosted in Murray Bridge. The award refers to the Barossa Valley Machinery Preservation Society (BVMPS) being the "best" under the National Historical Machinery Association (NHMA). And it's meant a humbling result for the members, considering they were pitted against 80-90 clubs from across Australia, including WA and QLD, society secretary John Richardson shared.
