Douglas

Number	Title	Author	Year	Description
66	DOUGLAS.	Peter Carrick	1982	As the name states it's all about the Douglas motorcycle beginning 1907 until the middle of the 1950s. Every page has brilliant clear black and white photographs with descriptions and there are a couple of copies of old advertising posters. If you own or love Douglas motorcycles this book is a must read. Donated by David Radloff in 1997.

Number	Title	Author	Year	Description
304	THE BOOK OF THE DOUGLAS.	Ernest W. Knott.	1928	A complete guide for owners and prospective purchasers of Douglas motorcycles dealing with every phase of the subject, including chapters on driving, touring, legal matters, insurance, tracing faults, and overhauling.
379	DOUGLAS.	The manufacturer	1929	Care and maintenance of the T6, S6, and C31, D31, E31 models. Includes running instructions for models T and S.
408	DOUGLAS.	J. R. Clew.	1974	THE BEST TWIN, A history of the Douglas motor cycle. The Best Twin tells the full history of the Douglas motorcycle, a quite remarkable story that alternates between moments of unqualified success and acute depression. It starts in the back streets of Bristol at the turn of the century when the early pioneers of the motorcycle were struggling for recognition. William Douglas, already a foundryman of local repute was perceptive enough to for see a great future for the motorcycle.

Dunelt

Number	Title	Author	Year	Description
433	DUNELT.	The manufacturer	1928	An advertising booklet featuring six models. These motorcycles appear to have some very unusual features such that if you are interested in old bikes, you should check them out. Donated by Margaret Bennets in 2004.

Number	Title	Author	Year	Description
404	ROYAL ENFIELD The Complete Story.	Mick Walker	2003	The Royal Enfield motorcycle was built in 1901, and today the company's most famous model, the Bullet, continues to be produced in India and is sold in many countries including the United States, France, Germany and Great Britain. The Enfield name still stands tall when many of its contemporaries have long since disappeared. But in case anyone only associates the marque with longevity and rugged but hardly up-to-the-minute design, there was a time when Royal Enfield meant innovation.
481	Royal Enfield. MADE IN INDIA The Bullet.	Gordon G	2002	Royal Enfield is the oldest motorcycle manufacturer in the world which is still in business and has a history of uninterrupted trading. The Bullet holds the distinction of being the longest running model in constant production. This book is full of interesting black and white photos.
