A workshop manual type booklet of only 19 pages providing instructions for the model M1 for single cylinder engines and M2 for two-cylinder engines.

408 DOUGLAS.

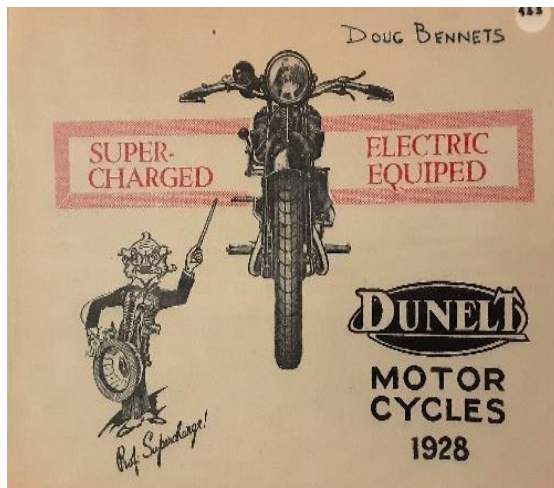

THE BEST TWIN, A history of the Douglas motor cycle.

Author, J. R. Clew.

Published, 1974.

The Best Twin tells the full history of the Douglas motorcycle, a quite remarkable story that alternates between moments of unqualified success and acute depression. It starts in the back streets of Bristol at the turn of the century when the early pioneers of the motorcycle were struggling for recognition. William Douglas, already a foundryman of local repute was perceptive enough to for see a great future for the motorcycle.

433 DUNELT.

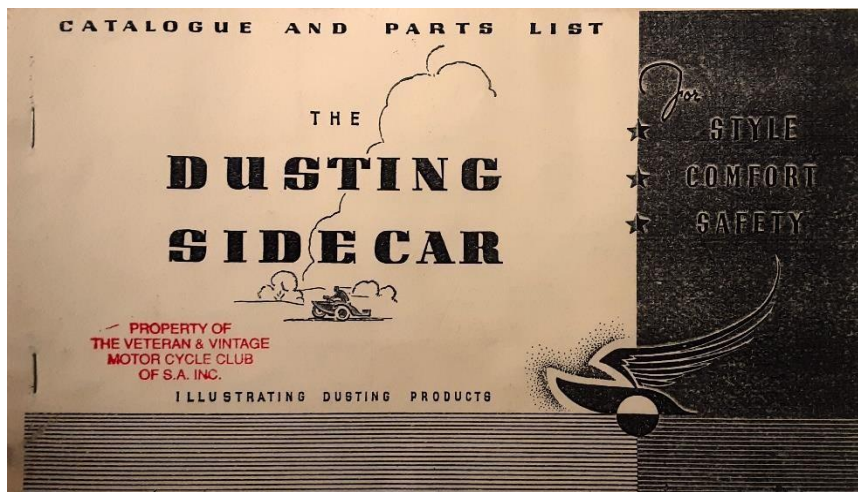

Author, the manufacturer.

Published 1928.

An advertising booklet featuring six models. These motorcycles appear to have some very unusual features such that if you are interested in old bikes, you should check them out.

317 Royal Enfield - MADE IN REDDITCH.

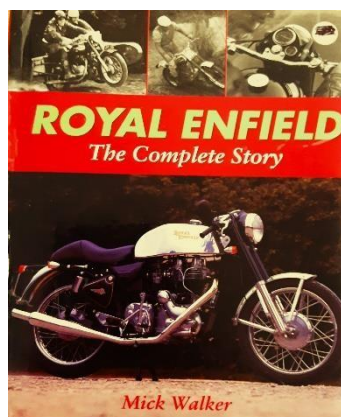

Author, Gordon May.

Published 2003.

A pictorial archive of Royal Enfield and its motorcycles.

404 ROYAL ENFIELD The Complete Story.

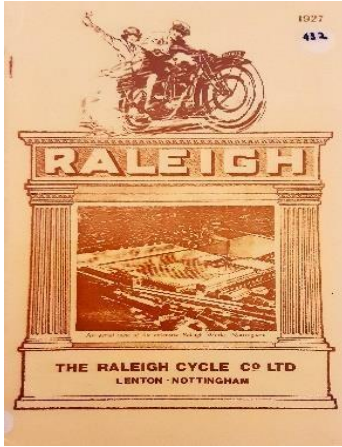

Author, Mick Walker.

Published 2003.

The Royal Enfield motorcycle was built in 1901, and today the company's most famous model, the Bullet, continues to be produced in India and is sold in many countries including the United States, France, Germany and Great Britain. The Enfield name still stands tall when many of its contemporaries have long since disappeared. But in case anyone only associates the marque with longevity and rugged but hardly up-to-the-minute design, there was a time when Royal Enfield meant innovation.

432 RALEIGH.

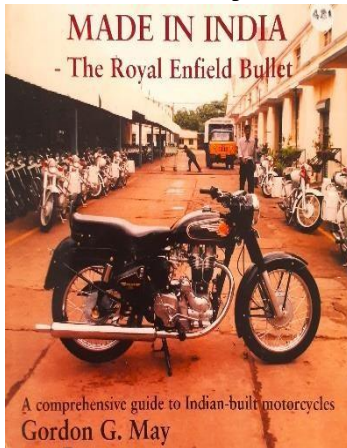

Author, the manufacturer.

Published in 1927.

An advertising booklet with information and specifications on eight Raleigh machines

Donated by Margaret Bennets in 2004.
